Building on quality

VH500 Submersible Hydraulic Pump

A submersible with a difference. VH500 powered by your hydraulic power pack or plant hydraulic PTO.

- All the advantages of a submersible without being electric.
- Solids handling up to 5mm in suspension
- Extremely low maintenance.
- VH500 2" Output, accepts standard hoses.
- No sparks, No smell.
- Reliable, the pumps can left running unattended for extended periods.
- Impeller and impeller bowl polyurethane coated to extend working life

VH500 the pump comes complete with it's own quick release flat faced hydraulic couplings so it can be put to work fast ,either from its own power pack or other hydraulic source i.e. landrover, tractor, excavator or other mobile power source.
